

CHECK YOUR IMMUNITY AGAINST COVID-19 WITH cPass™ TEST

\$60

EXCLUDE GST

1 What is cPass™ Test?

cPass™ Test detects the level of antibodies against the COVID19 virus in your body.

2 When should I do this test?

It is recommended for individuals to undergo cPass™ testing approximately 14 days post vaccination.

3 How long will I get my results?

You will receive your results within 7 days.

4 Do I need to consult with a doctor?

Doctor consultation is not required but if you wish to consult a doctor, additional \$30 consultation fees apply.
